

“THE MATRIX EXPRESSION
MVS' **MASSIVE WAKE**
LEAVES YOU WANTING
FOR NOTHING.”

EXPRESSION MVS MATRIX

The MVS has **set new standards** for Australian designed boats.

THE MATRIX EXPRESSION IS AUSTRALIA'S ANSWER TO THE DELUGE OF AMERICAN DESIGNED BOATS THAT ARE AVAILABLE ON THE MARKET TODAY. Designed and built for wakeboarders, this boat has certainly set new standards for Australian designed boats - although it almost sounds patronising to say that because this boat easily stacks up against the bigger American names. It is not just about performance wakes though, the resolute quality construction of the MVS is obvious before you even get in. With enough room for 12 passengers and massive storage compartments for whatever else you need to bring, the MVS is a class act without a doubt. Built with a sole purpose to send wakeboarders to new heights, the wakeboard edition MVS features huge rampy wakes and mellow transitions that have been hailed world-class by some of the world's best. Yes, the Expression is Matrix's answer to the big dollar American imports that have set the standard in the

hardcore wakeboarding scene. And it is inevitable that initially you will find yourself in a comparison frame of mind, but it won't be long before you are simply sitting back or riding behind this machine without a care in the world for anything else that is available. The MVS leaves you wanting for nothing. The Expression is now Matrix's biggest seller, many thanks to its build quality, inclusions and wake shape - not to mention a price. The entire deck of the Expression is molded in one piece including the bow lounge recess, dash console and seat bases. This process gives the Expression a great finish and structural integrity. The end result is a wake that will suit beginners right through to the hardest of competitors with a smooth transition and a nice peak that produces plenty of pop. This boat is huge and has all the comforts you could ask for in a wake boat while making sure that it gets noticed on the shoreline with its sleek design and graphics. The Expression seats 12 people in style thanks to the wrap-around bow lounge which offers passengers a choice of forward or rear viewing that has nice clear access through the centre walkway and split windscreen. ■
